

Dear Participate,

.....

We cordially invite you and your colleagues to participate in the soundscape description evaluation experiment. There are 60 audio clips in the experiment, each ranging from 10s~30s in length, with corresponding soundscape descriptions. We invite you, as a professional, to evaluate the quality of the descriptions.

Please click on this Google Drive link to download the experimental materials: Assessment.zip.

There are 6 Google Drive links, and please feel free to choose one randomly.

1) Please unzip the Assessment.zip file to the Assessment folder. Please enter the Assessment folder and do not move the files inside;

2) Please read "Instructions for participants.pdf" and see the experiment setup and the meaning of each indicator;

3) Please open the "_excel.xlsx" file. If the local hyperlink in it does not work on your computer or laptop, resulting in the inability to play audio, please open and use the "_google.xlsx" file. The links of "_google.xlsx" are all links to Google Drive. It will take a few seconds to cache the audio files. Please wait patiently;

Please click the link and play the audio;

(The record ID corresponds to the audio ID in the final_60 folder. If all links in the Excel file are invalid, please manually play the corresponding audio.)

4) Please return to us the Excel file containing your evaluation, "_excel.xlsx" or "_google.xlsx"; either one is OK.
